

Architectural Review Committee Information

This guideline is a collection tool for attachments developed by the Architectural Review Committee (ARC) as either (1) homeowner aids when they contract for Heritage Grand sitework or (2) checklists developed by ARC for communicating ARC Applications ("apps") requirements for repetitive-to-ARC homeowner requests.

These attached documents strive to both clearly communicate ARC requirements and improve the app response process.

To maintain communications as "most recent," the ratification date of each individual document will be reflected both here and on each document.

Attachments:

- Contractor Requirements When Working for Residents in Heritage Grand (ratified 7/11/22)
- Yard Drain Curb Termination (Curb Cut) Sketch (ratified 10/10/22)
- Holiday Decorations Installed by Homeowners (ratified 10/10/22)

This guideline revision was ratified by majority Board vote on October 10, 2022.

Board Secretary
